

«Credit Report»: new online company report

Great depth of information guarantees comprehensive risk protection and transparency

The ongoing verification of your business risks requires information that is wide-ranging and comprehensive. As well as up-to-the-minute data from the commercial registry, the «Credit Report» also reaches all the available sources within the OFWI data environment. The highest possible level of security for your business transactions and an incomparable depth of information – both available at the click of a mouse.

Our intelligent assessment tools provide you with details such as a maximum credit recommendation for each business under investigation, together with a prognosis of the medium term probability that your business partner will become insolvent. The integral updating service ensures that your risk-protection system is based only on information that is up-to-date.

Credit Report characteristics

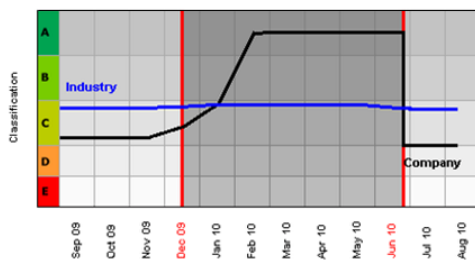

Line of credit for short-term obligations

CHF 175'000
